

UNIVERSAL

HORIZONTAL DIRECTIONAL DRILLING

UNITANK TANKS

Design

Efficient, portable, heavy-duty, and cost-effective, all our water tanks are designed specifically for horizontal directional drilling industry.

Durable

These mud storage tanks are made to last. Our mud tanks are tough enough to meet the standards of the U.S. Department of the Interior, USDA and the Department of Transportation.

Transportation

Our mud tanks are lightweight and easy to handle. Often times mud tanks must be placed in a location not easily accessible. Universal HDD mud tanks can be easily maneuvered, and lifted into position. Simply install on native soil or sand pad.

Variety

Our selection of mud storage tanks is available in a wide variety of sizes. Some mud tanks of a particular size can be made in different dimensions. Most of our mud tanks are available in white color.

Tank Jets

Every UNITANK series water tank features a set of high-performance tank jets. These tank jets are constructed from industrial strength materials, and are able to deliver prompt and thorough yield. In turn, this means faster and higher quality yield.

UNITANK	1000		750		500		300	
Specification	U.S.	Metic	U.S.	Metic	U.S.	Metic	U.S.	Metic
